

eTXT

BUSINESS MESSAGING MADE EASY

WEB

PORTAL

### Simple to use with enhanced reporting capabilities.

Streamline your business communications, send and receive bulk messages, and improve productivity with the eTXT web portal. This self-service web portal gives you a richer experience than Email to SMS. The web portal provides a comprehensive suite of messaging features which are designed to improve individual and organisational efficiency and effectiveness. You can easily send personalised text messages to one or thousands of people instantly.

### Easy-to-use, self-service.

## Getting started.

Set-up is as easy as contacting your Spark relationship manager or emailing [mobiledirect@sparkdigital.co.nz](mailto:mobiledirect@sparkdigital.co.nz). You will receive your login details in a welcome email. Then log into the web portal, upload your contacts, and start texting.

 **No sign-up fee**

 **No contract periods**

 **Local support**

## Save time and increase revenue.

Receive your replies within the portal

Add any document or URL

Save time by creating reusable templates

Upload your contacts in an instant

Track message character count & use emojis

Have a question? Get in touch

Manage your contacts to maximise your reach with your personal groups

Type messages in English, convert to 45+ languages

Timing is everything. Schedule your messages for any time or date

The eTXT web portal allows you to create reports on all messages sent in the web portal or API. This also enables you to export the reports into a CSV file to create pivot tables or import into Tableau for valuable insights.
